

The background of the slide is a light blue color with a network diagram. A central red sphere is connected by white lines to several yellow rectangular blocks. Some of these blocks are further connected to other yellow blocks, creating a web-like structure. Several stylized human figures in business suits are scattered throughout the scene, some standing on the yellow blocks and others walking. The overall theme is interconnectedness and data flow.

# You've Got Data, Now What!

Moderated by Tony Giroti  
Chairman & CEO, Bridge Energy Group  
Dec 8<sup>th</sup>, 2011

- Transformation of the Utility Industry
  - Automation at all levels, Intelligent end points
  - Projects: Smart Grid, Grid Ops, Distribution Automation, others
- Source of Data
  - AMI, Synchro-phasors, IEDs, Sensors
- Operationalizing the Data, Use of Data
  - Coordinate Integration and value
  - Transactional – Efficiencies
  - Analytics – Service

- **Greg Armstead – EWEB**
  - A Utility's perspective - AMI Data integration and usage
- **Derrick Mealiffe – Telecordia Technologies**
  - Communication perspective - Theft deterrence, Customer service, Security, Reliability, Safety, N'wk Mgt.
- **Ali Ipakchi – OATI**
  - Coordinated Mgmt of Dist. & Demand Res. Resources
  - Utility Operational Scenarios & Challenges related to Wind Power
- **Scott Crowder – Nat. Renewable Energy Lab**
  - Trends from ARRA grant recipients
