

## Amr Ibrahim

Dr. Amr Ibrahim is an applied economist with 20 years of experience in the energy and utility industries. He specializes in navigating energy issues related to restructuring, market design, regulation, pricing, tariff setting and operation of wholesale and retail energy and utility industries markets. He is a member of the International Association of Energy Economics.

Dr. Ibrahim has an experience in applied economics and regulatory policy in the energy sector at both wholesale and retail levels. Additionally, Dr. Ibrahim has been a conduit for the concerns of the residential customers and an advocate for their common interests in developing an efficient and effective interoperation of the systems, devises and institutions that encompass the nation's electric system.
